Fittings for
water | gas | irrigation 01.2013

ISTRUZIONI DI POSA

INSTALLATION INSTRUCTIONS - INSTRUCTIONS DE MONTAGE - INSTRUCCIONES DE INSTALACION

Tagliare il tubo, rimuovere le sbavature.

Svitare la ghiera fino all'ultimo filetto. Lasciare la ghiera sul raccordo durante l'inserimento del tubo. La lubrificazione e la smussatura delle estremità renderanno più facile l'inserimento del tubo.

Cut the pipe square, remove burrs. Undo the nut to the last thread. Leave the nut on the fitting while inserting the pipe.

Lubrication and chamfering of the pipe end will ease insertion of the pipe.

Couper le tube à l'équerre, ébavurer si nécessaire. Dévisser l'écrou jusqu'au dernier filet. Laisser l'écrou sur le raccord et insérer le tube. Lubrifier et chanfreiner l'extrémité du tube rendra l'insertion plus facile.

Corte el tubo al tamaño requerido y realice el biselado al final del tubo. Retire la tuerca hasta su última rosca dejandola en el accesorio durante el próximo paso. A fin de facilitar la introducción es conveniente lubricar y biselar el tubo.

Inserire in modo rotatorio il tubo nel raccordo attraversando il tubo nel raccordo attraversando l'anello blueseal fino alla battuta centrale.

Serrare a fondo la ghiera. Utilizzare una chiave per il serraggio finale di diametri da 40 mm e superiori.

Twist the pipe into the fitting past the Blueseal to the pipe stop. Tighten the nut firmly. Use a wrench for final tightening of sizes 40mm and above.

Insérer en rotation le tuyau dans le raccord en traversant la bague Blueseal jusqu'à la butée centrale. Visser et serrer l'écrou fermement. Utiliser une clé pour serrer l'écrou des raccords de diamètres supérieurs ou égaux à 40 mm.

Introduzca el tubo con movimiento circular dentro del accesorio pasando la junta blueseal hasta llegar al tope interno del accesorio. Gire firmemente la tuerca en dirección del cuerpo del accesorio, utilizando la llave en los tamaños 40 mm y mayores.

La ghiera dovrà essere ben serrata, ma non deve necessariamente toccare la parte centrale del corpo.

The nut should be screwed tightly, there is no need for the nut to actually meet the body shoulder.

L'écrou doit être bien serré mais ne doit pas nécessairement toucher la butée centrale du corps du raccord.

Cierre la tuerca firmemente, aunque no es necesario cerrarla hasta el tope.

Gomito a 90°

90° elbow
Coude à 90°
Codo a 90°
